## COMPACT

Tablero termolaminado compacto decorativo (10mm). Formado en la cara exterior por papel decorativo impregnado y en el interior por papel kraft impregnado con resinas termoestables. A este material se le aplica en la prensa temperatura y presión de forma simultánea para conseguir un tablero compacto de alta densidad.

*Tampo termolaminado compacto decorativo (10mm). A sua face exterior é formada por papel decorativo impregnado e o seu interior por papel kraft impregnado com resinas termoestáveis. O conjunto é prensado por meio de calor e alta pressão de forma simultânea para conseguir um tampo compacto de alta densidade.*

Decorative pressed laminated table top (10mm). Interior composed of thermostable resin kraft paper and surface lined with impregnated decorative paper. The compound is pressed simultaneously at high temperature and pressure to obtain a high density compacted table top.

*Plateau stratifié compact décoratif (10mm). Formé sur sa face extérieure par du papier décoratif imprégné et dans son intérieur par du papier kraft impregné avec des résines thermostables. L'ensemble est ensuite pressé sous l'action de la chaleur et de la haute pression, simultanément, afin d'obtenir un plateau compact de haute densité.*

A photograph of a white lounge chair on a rocky shore at sunset. The chair is positioned on the left side of the frame, facing right. The background features a rocky coastline with waves crashing against the rocks. The sky is a mix of blue and orange, indicating the time is either sunrise or sunset. The overall mood is serene and relaxing.

## OLEFIN

Alta solidez de los colores a la radiación UV. Se trata de un tejido fabricado con hilo de polipropileno que ha sido tintado en masa, en su proceso inicial. Esto le otorga una gran resistencia a la luz solar ya que el color queda fijado en el hilo del tejido con mayor intensidad que en otros procesos.

Certificación UV standard 801 con la puntuación UPF 80, que garantiza la protección de la piel de los efectos nocivos de los rayos UV.

Repelente al agua - resistente a las manchas - 100% reciclable.

*Alta resistência das cores face à radiação UV. Sendo um tecido fabricado com fio em polipropileno tingido em massa no seu processo inicial, esta característica confere-lhe uma maior resistência à luz solar o que se deve essencialmente ao facto de a cor permanecer fixada ao fio com maior intensidade do que em outros processos de pigmentação.*

*Certificação UV standard 801 com factor de proteção UPF 80, que garante a proteção da pele dos efeitos nocivos dos raios UV.*

*Repelente à água - anti-manchas - 100% reciclável.*

High resistance of colours to UV radiation. The fabric is made from polypropylene fabric mass-dyed during the initial process. This provides high resistance to sunlight because the colour is set in the thread of the fabric more intensely than in other processes.

UV standard 801 rating UPF 80, that guarantees skin protection against nocive effects of UV rays on the skin.

Water repellent - stain resistance - 100% recyclable.

*Haute résistance des couleurs face à la radiation solaire. Il s'agit ici d'une toile fabriquée à partir d'un fil en polypropylène qui a été teinté en masse, depuis son processus initial. Ceci lui confère une haute résistance à la lumière solaire, étant donné que la teinte reste fixée sur le fil avec une plus grande intensité en comparaison avec d'autres processus de pigmentation.*

*Certification UV standard 801 avec un factor de protection UPF 80, qui garantie une protection de la peau face aux effets nocifs des rayons UV.*

*Repellente à l'eau - résistant aux tâches - 100% recyclable.*

SOLUTION DYED - COLOUR FASTNESS: 7-8/8 - 100% RECYCLABLE
