## COMBINE FUNCTIONAL - & MOOD LIGHTING

Make a statement at home with a striking floor lamp. Do you live in a small space? No problem, just place the floor lamp behind your sofa or in a corner. Floor lamps combine functional lighting with mood lighting. And why not go for a dimmable floor light to create just the atmosphere you're after?

## WORK IN COMFORT

What's a workspace without a desk lamp? It needs to provide good lighting of course, allowing you to read, write, study or work in comfort. An adjustable shade is very useful, because it enables you to adjust the lighting angle.

TABLE LAMPS

# MIX & MATCH

How it works

- Select a pendel
- Place a light source in it
- Combine it with your favorite vase, and make it all shine!

## glassware: to decorate endlessly!®

Add some colour to your interior with beautiful glasswork, a 'Mix & Match' concept. Unique are the vases with lighting inside: these ones are a real eyecatcher in your house and you create a special atmosphere. We have vases with a smooth surface but also vases with a pattern, spreading the light beautifully. Available in different colours.

Go to the decorative vases page for a wide range of colourful vases in the Furniture & Accessories catalogue.

## ENVIRONMENT FRIENDLY

Because we care about the environment one of our company values is to treat our customers, suppliers and the planet with respect. When it comes to decorative light bulbs it can be difficult to find ones which are environment friendly. After a while of searching and testing we have now found, beautiful, stylish and yet eco proof bulbs.

Our new LED filament bulbs are just that!

Our new range of LED light bulbs have a warm color tone and a decorative wire for the great look. LED doesn't heat up much and they don't use a lot of power which makes them much more eco-friendly. Besides that they have a much longer life span, this way we also have less waist on our planet. Discover it yourself, this wonderful alternative to the traditional light bulb.
